Kathy Molloy, Planning Director
County of Santa Cruz

Dear Ms. Molloy:

It has come to our attention that references to the majority of the CPOA's 600 members in our attorney's letter to you, dated February 7, 2020, may have been misconstrued by some to suggest that the CPOA's comments on Santa Cruz County's LCP update process is with the express consent of all of our members. We therefore wish to clarify for the record that the statements made and positions taken by the CPOA are at the direction of the CPOA's Board of Directors, which Board was duly appointed, in accordance with our organization's bylaws, by a majority of the CPOA membership. We acknowledge that the CPOA's comments on the LCP update process may not actually represent the viewpoints of all CPOA members or all Santa Cruz County coastal property owners. We apologize for any potential confusion we may have caused and trust this letter provides sufficient clarification on the point. Please do not hesitate to contact me directly if you have any questions.

Sincerely,

Steve Forer
